This IMP Series II (2) will follow the same methodology and format like the IMP Workshop Series I launched in January 2014, which was conceived to cover the entire lifespan of a ship, from the decision to purchase to its final loss or scrapping, and designed to provide a platform for eminent professionals from the Hong Kong Maritime Industry to unreservedly share their view and valuable experience with those professionals, young entrants in particular, in the shipping fraternity of the Greater China Region.

IMP S1 was conducted in interactive and mind-provoking sessions, the value of which was clearly endorsed by most of the participants who requested incessantly for the repeat of a similar programme for months after the completion of IMP S1 December 2015. Responding to such earnest requests, the IMP Committee, have through its relentless efforts, succeeded in re-introducing an innovative, educational and interesting programme in IMP S2, in monthly 2.5-hour workshop sessions commencing on 29th November 2016.

Staff and students of the Hong Kong Polytechnic University are cordially invited to attend the First workshop.
